

**Tablet Phoenix OneTab Pro Mate**

TABLET PHOENIX ONETAB PRO ANDROID 11 10.1" FULL HD 1920X1200 OCTA CORE UNISOC T618 2 GHZ 6 GB + 128 GB WIFI 2.4 - 5GHZ SIM 4G - 3G CAMERA 5 + 13 MPX

## Phoenix OneTabPRO Series: ¡Live conected

Phoenix OneTab Pro Mate tablet has a Unisoc OctaCore processor with 4G (it has a SIM slot) specially designed so you can navigate from anywhere.

It is equipped with a 10.1" LED-backlit 5-point capacitive touch screen with a high-definition HD 1920x1200 IPS resolution. With the integrated front and rear cameras (5 and 13 mpx.), you can have long conversations video from anywhere. In addition, its 5000 mAh rechargeable battery guarantees you hours of work without interruption. This tablet comes configured with the Android 11 operating system, which offers you advanced multitasking functionality as well as all the Google tools.

Thanks to the 8-core processor and its 6 GB of RAM, you can enjoy the maximum performance of your applications. Also, its 128 GB of internal storage, and the microSD slot for greater storage capacity allow you to store endless files (the microSD slot supports micro SD cards up to 128 GB). The microSD card interface can also be used to play a variety of media formats. Activate Dual Wi-Fi (2.4GHz or 5GHz) or 4G for high-speed Internet connectivity and start enjoying your Phoenix OneTab Pro Mate.

In addition, it includes a GPS function, radio, as well as Bluetooth, making it the perfect ally for both your work and leisure days.

In addition, it is ultra-compact and includes a cover with a keyboard to facilitate any task wherever you are.
