

## HEADPHONES

### Sport Headphones

Colour: Black

## The perfect combination of sound, durability and ergonomics

The black Phoenix PHACTIVESPORTS behind-the-ear sport headphones provide terrific sound quality, comfort, and stability, ideal for active lifestyles. The combination of in-ear earpieces and soft rubber earhooks guarantees a secure fit during active use and the ultimate in comfort. The headphones are also splash-proof, making them suitable for heavy workouts.

Powerful 10mm neodymium drivers offer a wide frequency response with deep bass and clear treble to put you right in the middle of your music. What's more, you will be able to make and answer phone calls during your running sessions with their built-in microphone.

These sports headphones have been specially designed to give you absolute freedom while doing your favorite sport. The 3.5mm plug provides compatibility with a wide variety of MP3 players, CD players, smartphones, and more.

#### Secure fit during active use

Their neckband provides a comfortable and secure fit and helps keeping the headphones in place. The in-ear design makes them stay in place even during the most rigorous physical activities.

#### Control Talk

Make and receive phone calls during your running sessions with the built-in microphone and control.

#### Sweat Proof

Developed for training in any conditions, these sport earphones are designed to endure through rain, water, and sweat.
